

YOU WANT TO PRACTICE YOUR FAVOURITE SPORT BUT THERE IS NO SLALOM COURSE?

CAS SOLVES THIS!

CAS makes it possible to practice your favorite water ski discipline everywhere. (Just add water and a boat). Whether it is at your favorite club, neighborhood lake or on vacation. CAS lets you experience water ski slalom training and play as if you were using a real slalom course.

CAS is compliant with the International Waterski & Wakeboard Federation (I.W.W.F) ruling for the Audio Slalom Signal Generator (ASSG) and is developed in close collaboration with I.W.W.F.

CAS tracks and stores your slalom courses for viewing and analysis afterwards.

CAS can visualize your technique changes and improvements.
